## SUGAR BOUNTY.

Senator Mills' Amendment to Hare's Bounties Take Effect Immediately Upon the Passage of the Bill.

WASHINGTON, July 5.—Monday was a most exciting as well as important day in the senate. It was a day marked by many unusual passages of bills, and by the influence of lively personalities between senators. It was a day when the senate chamber was filled with a most unusual atmosphere of excitement and of the clash of hot words, and by a series of actual tests of strength by votes.

A large number of these votes were taken, two of which were of special importance. Senator Mills' amendment to Hare's bill, which was passed by a vote of 54 to 46, was the first of the day. It was a bill which would have the effect of increasing the bounty on sugar from 10 to 15 cents per hundred pounds.

And Still They Come.

Just after the Democratic primary the Pick-at "reached out and left" for a sore place in the Democratic ranks. It not only failed to find it, but in return has been "letting it in the neck" ever since about this style.

Brief, But to the Point. The Voters of Lawrence County.

I want it understood that I am not a Democrat, and that I am still a Democrat and expect to vote the ticket this fall and forever. Respectfully, L. J. S. S. S.

A Word From Mr. Roberts. Along with my friends John Hayes and Tip Moore I desire to say a few words in favor of the Democratic ticket of the town of the primary election.

I am a Democrat from principle and believe heartily in the Democratic idea of the majority rule, and I therefore submit cordially to the will of my party as expressed by the majority vote in the primary. Mr. Woods secured the nomination fairly and honestly and I am for him heartily.

I appreciate the earnest support given me by a great many Democrats and hope to be found at the caucus and enthusiastically for the party on November.

With good will toward all I remain, very respectfully, L. J. S. S. S.

The Louisa Schools. The Board of Education met last Saturday evening and selected the following teachers for the next term of the Louisa Graded School: U. S. H. Anderson, Principal; L. E. Meloy, Miss Maggie Hatcher and Miss Ida Phillips assistant.

A departure was made in employing a male teacher for first assistant and it is generally approved by the patrons. Mr. Meloy is a graduate of a first class school and holds high recommendations. The other teachers were employed in last year's school and the results of their work are so well known that it is useless to speak of them here.

A suitable school is expected, but everybody has to make it a success.

Lawrence County Tobacco Will Make Its Mark.

Nothing is more like success than to be in a very small way. The farmers who put in crops of tobacco with the knowledge that a considerable degree of uncertainty would be the result, but that they may not prove such a failure as they may have feared earlier in the season.

Mr. Foster of Mason county, a highly intelligent and thoroughly competent practical tobacco man, came to this place on an inspection trip last Wednesday. He was accompanied by a very favorable outlook, and after a thorough investigation he pronounced tobacco growing in this section to be a decided success and no longer an experiment. He says Col. Northrup has been one of the finest tobacco men in this section for years. He measured a lot of tobacco and found it to be of the best quality. The new ground tobacco is, of course, the best, but the old ground tobacco is doing nicely. The "stand" of the tobacco is much better than in the past.

Mr. Foster says he thinks the yield in this section will be about 1,000 lbs. per acre and of a very fine quality. While this seems to be the best yield yet in this section, it is still a long way from the ideal. The farmers are urged to plant their tobacco liberally, as the stirring and loosening of the roots is absolutely necessary to giving the tobacco certain important qualities.

Mr. Foster predicts that within five years Lawrence county tobacco will have a permanent and enviable place in the market. He also says that tobacco growers in this section will be able to move into our midst next year.

He had nothing but words of encouragement.

The City Paternalists. When Mayor O'Brien ascended the throne Tuesday night he assumed as never an air of consistency with his usual jolly demeanor, and informed the collective wisdom of the municipality that "no more would be the city fathers."
